

Creative director: Katherine Feng

Designer: Lacey Shin

General feedback:

- Overall super good job!
- very consistent between the mobile and desktop versions and I like the chosen images
- Very clear communication and concept
  
- Maybe for the background instead of just red it could be red w a grainy texture for the more vintage-ish feel that matches the images
- I really like the overlayed text, maybe the font could be a more decorative font to add more visual interest to that part
- I also like the badge but think it could be interesting to see what it would look like with the logo/real badge instead of a white fill
- Think it could be cool to have some kind of background for the roster section like maybe a field kind of image but not sure
